A medium to disseminate novel experimental and theoretical research results in the field of biomedicine, biology, clinical, rehabilitation engineering, medical image processing, bio-computing, D2H2, and other health related areas.

Call for Papers

SPECIAL ISSUE ON

Smart Health Care Systems

Background

Medicine is undergoing a sector-wide transformation - thanks to the advances in computing and networking technologies. Healthcare is changing from reactive and hospital-centred to preventive and personalized. The change is also from disease focused to well-being focused. In essence, the healthcare systems along with the fundamental medical research are becoming smarter. We anticipate significant improvements in areas ranging from molecular genomics and proteomics to decision support for healthcare professional through big data analytics. The systems are developing to support behaviour changes through technology-enabled self, social and motivational management support. Further, with smart technologies, healthcare delivery could also be made more efficient, higher quality and with lower cost. In this Special Issue, we welcome original research, as well as review articles in all areas of smart healthcare.

Potential Topics Include, but not limited to,

- Smart Networks for Health care
- Smart Devices for Health Care
- Health Care with IoT devices
- Smart Sensors for Health Care
- Smart Clinical Decision Support Systems
- Health Care via Social Networks
- Anticipatory Health Care Systems
Health Care with Applications of GPS

Submission Instructions

Authors are encouraged to discuss with a guest editor to determine the suitability of their intended submissions. Before submission authors should carefully read over the journal's Author Guidelines, which are located at http://www.aspbs.com/jmihi/inst-auth_jmihi.htm Prospective authors should submit an electronic copy of their complete manuscript through the journal Manuscript Tracking System at http://mstracker.com/submit1.php?jc=jmihi, according to the following timetable:

Original, high-quality contributions that are not yet published or that are not currently under review by other journals or peer-reviewed conferences are sought. Papers will be peer-reviewed by independent reviewers and selected based on originality, scientific quality and relevance to this Special Issue. The journal editors will make final decisions about the acceptance of the papers.

Important Dates

Submission Deadline: 30 September 2019
First Round notification: November 2019
Final Acceptance: Dec 2019.
Publication Date: Decided by EIC

Manuscript-Processing Fees

All new manuscripts submitted to this journal will be subjected to a Manuscript Processing Fees. Research article publishing is not without occurring costs and the costs have been steadily increasing. To defray part of the publication cost, the journal will charge manuscript-processing fees, to be paid by the authors or their affiliated research institutions. The publication fee will be used to defray part of the occurring expenses associated with manuscript processing, editorial work flow, typesetting, proofreading, printing, online-hosting, and archiving. Authors or their affiliated research institutions are required to pay US$1080 for their articles for a special issue article from all Countries. The authors will receive the PDF version of their research papers in final form. When submitting a manuscript
through online, it will be processed with an understanding that the corresponding authors fully agree to pay all manuscript-processing fees upon acceptance. The author who submits the manuscript to the journal is fully responsible for the manuscript-processing fees. Accepted peer reviewed manuscripts will not be processed and forwarded to production until all fees are paid in full to the publisher. Publisher will issue an invoice of manuscript processing fees after a manuscript has been accepted for publication. Corresponding author will be asked to submit a signed Copyright Transfer Agreement (CTA) along with manuscript processing fees.
