Call for Papers

Special Issue on

EMERGING TRENDS IN HEALTH INFORMATICS

It is well known fact that the research in health informatics in the last three decades have been outstanding. Starting from various medical devices to identify and quantify various diseases, health informatics is on the go to give us a top class medical health services to humans. This special issue will specifically focus on the emerging trends in health informatics addressing the current challenges are there present in the research and how the scientists and researchers are trying to push the frontiers for the next generation health informatics. This special issues will bring out the essence of future trends health informatics.

SCOPE

The authors are requested to send their original manuscripts in the special issue on **“Future Direction on Medical Imaging and Health Informatics”**. This special issue call for the original paper that discussing the latest developments, trends and solutions. Topics of interests include, but are not limited to.

1. Artificial Intelligence application to health informatics
2. Web based health informatics
3. E – Health
4. Deep Machine Learning Convergence for Clinical Diagnosis Applications
5. Modern day health informatics systems – societal aspects

Submission Guidelines:

All manuscripts must be submitted via mstracker.com and authors are request to write in their cover letter that their submission is for this special issue and the name of the guest editor, so that the guest editor can be notified separately. Guidelines for preparation of the manuscripts are available at the journal website http://www.aspbs.com/jmihi/instauth_jmihi.htm.

Prospective authors should submit an electronic copy of their complete manuscript through the journal Manuscript Tracking System at <http://mstracker.com/submit1.php?jc=jmihi>.

Manuscript-Processing Fees: All new manuscripts submitted to this journal will be subjected to a Manuscript-Processing Fees. Research article publishing is not without occurring costs and the costs have been steadily increasing. To defray part of the publication cost, the journal will charge manuscript-processing fees, to be paid by the authors or their affiliated research institutions. The publication fee will be used to defray part of the occurring expenses associated with manuscript processing, editorial work flow, typesetting, proofreading, printing, online-hosting, and archiving. Authors or their affiliated research institutions are required to pay **US\$1080** for their articles for a special issue article from all Countries. The authors will receive the PDF version of their research papers in final form. When submitting a manuscript through online, it will be processed with an understanding that the corresponding authors fully agree to pay all manuscript-processing fees upon acceptance. The author who submits the manuscript to the journal is fully responsible for the manuscript-processing fees. Accepted peer-reviewed manuscripts will not be processed and forwarded to production until all fees are paid in full to the publisher. Publisher will issue an invoice of manuscript-processing fees after a manuscript has been accepted for publication. Corresponding author will be asked to submit a signed Copyright Transfer Agreement (CTA) along with manuscript processing fees.

Submission Schedule: Important Dates

Submission deadline: 31 Aug 2018

Reviews: 31 Oct 2018

Final version due: 31 Dec 2018

Publication Date: To be decided by the Publisher
