

**Journal of Medical Imaging and Health Informatics (JMIHI):
2015's SCI-IF 0.877**

A medium to disseminate novel experimental and theoretical research results in the field of biomedicine, biology, clinical, rehabilitation engineering, medical image processing, bio-computing, D2H2, and other health related areas.

Call for Papers

Special Issue on

FUTURE DIRECTIONS OF MEDICAL IMAGING AND HEALTH INFORMATICS

The objective of the “**Future Direction on Medical Imaging and Health Informatics**” special issue is to analyze various research information according to the medical images, disease identification process, health information, drugs details, and other disease diagnosis process. During the medical images and health information examination process, the experts are met with several difficulties which lead to reduce the efficiency in medical fields. So, this special issue likes to invite the various medical research articles, research insights, engineer's thoughts and ideas for solving those medical imaging and health related research problems in future perspective. As a result the journal receives the usual and be taught articles are solicited in all facets of including theoretical reports, realistic purposes, new social science and experimental prototypes.

SCOPE

The authors are requested to send their original manuscripts in the special issue on “**Future Direction on Medical Imaging and Health Informatics**”. This special issue call for the original paper that discussing the latest developments, trends and solutions. Topics of interests include, but are not limited to.

- Magnetic Resonance Imaging (MRI) based medical disease diagnosis process with relevant treatment procedures
- Health care information, standards and relevant health services
- Machine learning techniques for disease modeling health informatics
- Risk factors involved in the medical imaging analysis process
- Human internal organ function examination process using machine learning techniques.
- Computer topography based image analysis

- Machine learning based automatic disease identification system (Alzheimer Diseases, Bone cancer, bone fracture)
- Optimization methods and relevant studies for disease identification system
- Collaborative techniques for analyzing health informatics

Submission Guidelines:

All manuscripts must be submitted via mstracker.com and authors are request to write in their cover letter that their submission is for this special issue and the name of the guest editor, so that the guest editor can be notified separately. Guidelines for preparation of the manuscripts are available at the journal website http://www.aspbs.com/jmihi/instauth_jmihi.htm. Prospective authors should submit an electronic copy of their complete manuscript through the journal Manuscript Tracking System at <http://mstracker.com/submit1.php?jc=jmihi>.

Manuscript-Processing Fees: All new manuscripts submitted to this journal will be subjected to a Manuscript-Processing Fees. Research article publishing is not without occurring costs and the costs have been steadily increasing. To defray part of the publication cost, the journal will charge manuscript-processing fees, to be paid by the authors or their affiliated research institutions. The publication fee will be used to defray part of the occurring expenses associated with manuscript processing, editorial work flow, typesetting, proofreading, printing, online-hosting, and archiving. Authors or their affiliated research institutions are required to pay **US\$1080** for their articles for a special issue article from all Countries. The authors will receive the PDF version of their research papers in final form. When submitting a manuscript through online, it will be processed with an understanding that the corresponding authors fully agree to pay all manuscript-processing fees upon acceptance. The author who submits the manuscript to the journal is fully responsible for the manuscript-processing fees. Accepted peer-reviewed manuscripts will not be processed and forwarded to production until all fees are paid in full to the publisher. Publisher will issue an invoice of manuscript-processing fees after a manuscript has been accepted for publication. Corresponding author will be asked to submit a signed Copyright Transfer Agreement (CTA) along with manuscript processing fees.

Submission Schedule:

Paper Submission: 10th May, 2018 or earlier with popular submission

Decision Notification: 10th Aug. 2018

Camera Ready Submission: 20th Oct. 2018

Special issue Publication: Dec. 2018 or earlier.
